DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Brian Dutton on September 7, 2004.

The application has been amended as follows:

Claims 5-12 have been canceled.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:
Claims 1-4 are allowable over the prior art. The closest prior art is EP0392674 (herein referred to as Anthony).

Anthony teaches a process for the production of a shaped polyimide sheet wherein a polyimide sheet is placed on a die, the die is placed in an autoclave, and the sheet is formed by applying vacuum between the die surface and the sheet while raising the temperature and pressure in the autoclave (abstract). Thus, Anthony teaches a process of forming a polyimide sheet wherein gas is depressurized on one side of a polyimide sheet at the same time as pressurized gas is applied to the opposite side of the sheet. Anthony does not teach that the simultaneous depressurization on one side

of the sheet and pressurization on the opposite side of the sheet should be commenced when the deformation of the sheet reaches a distance in a range of approximately 40% to 99% of the depth of the concave molding surface. Furthermore, the prior art as a whole neither teaches nor renders obvious a process wherein the simultaneous depressurization on one side of the sheet and pressurization on the opposite side of the sheet should be commenced when the deformation of the sheet reaches a distance in a range of approximately 40% to 99% of the depth of the concave molding surface. Thus, claims 1-4 are allowable.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin R Kruer whose telephone number is 571-272-1510. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Jones can be reached on 571-272-1535. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
